**SILVERWARE** that won't wear out. That is what every household is looking for. Poorly plated ware is like a suit of shoddy clothes. It soon becomes an eyesore and a disgrace.

We know, from our experience and the testimony of our customers, that our spoons, knives and forks of both solid and plated silver will stand the test of time. They have done so in the past and will continue to do so in the future.

Get one of our silver napkin rings for the baby. It will be a source of continual joy to the youngster.

## KID IRISH FOULS MEYERS AT ZION

LATTER NO MATCH FOR CARBON COUNTY IRISHMAN.

Terrific Punches of the Coal Miner Too Much For the Salt Lake City Fellow—Jack Carpenter Has Ambitions to Again Meet the Man Who Walked on His Head at Scotland Reveny.

When the gong sounded at the close of the second round in the go between Kid Irish and Jack Meyers before the Manhattan club at Salt Lake City last Monday evening the Herman club boy was in distress and ready and anxious, according to all reports, to seek the shelter of his corner. But Kid Irish was going strong and had a heavy foul on the road when the gong sounded. It was too late to stop and it landed, putting Meyers away for several times the count of ten. By the rates of the game, the blow was foul and the fight went to Meyers, although he was not aware that he had won until some minutes afterwards, on his return from dreamland.

Meyers was no match for the Irishman, and he seemingly realized this fact soon after the pair had entered the ring to stage the headline act of the evening. He tore into Irish fast and furious, but his blows were ineffective, and at the close of the first round Meyers walked slowly to his corner, holding on to the ropes. He was all but exhausted. He pursued the same tactics in the second, with the same lack of result. Kid Irish in the meantime drove in stiff rights and lefts to Meyers' face and body, and each blow reached home. The terrific punches were too much for the westsider and he was all but out when the foul was landed which gave him the victory.

The semi-windup of the evening—a six-round bout between Harry Atwood and Yankee Allen—was a rather tame affair in that Atwood was far too clever for Yankees, whose attempts to connect were futile. Atwood proved himself a clever boxer and, with a fighter of a style different to that of Yankees, should to a great attraction for the Downing show. Jack Carpenter and Tom Crawford put on a hard four-round battle, with the odds in favor of Crawford all the day. Tom began in the first round laying his left against Carpenter's face, and kept it there throughout the go, with the result that Carpenter's face was in a somewhat matted up condition at the end.

It was pretty quiet, the mines working but two and three days a week at the best. Many miners are leaving those camps for the East, where there is plenty of work and at good wages.

J. N. Corbin returned the last of the week from a trip over the Castleton telephone line. He reports that the line is now in good shape and that pations of the Midland Telephone company are now able to talk from Moab to Grand Junction. He left Wednesday for a trip over the Mountain line—Moab Times, 14th.

Frank Denning, a civil engineer of Provo and representing Col. C. E. Loomis, arrived today and will leave for the big Indian mines tomorrow. His visit, it is believed, adds a good deal of weight to the report that extensive operations at Big Indian will soon start. Colonel Loomis and others will make a trip to the mines within the next week or so, it is reported.—Moab Times, 14th.

Hitchcock Gould, father of Fireman William Gould of the west end, returned to Salt Lake City Wednesday morning. He has been fighting with the English army in France for seven months and was in continuous action for four months. In a hand-to-hand conflict Gould received bayonet wounds in the left shoulder and left leg. He says the Germans are great fighters.—Helper Times, 14th.

of the boat. Crawford was given the decision.

Carbon County Product.

Kid Irish until going to Salt Lake City recently has been working in the coal mines of the upper camps of Carbon county—Clear Creek, Winter Quarters and Utah mine, and has many admirers locally. He recently beat it over Jack Carpenter at Scofield in a six-round bout. This was on St. Patrick's Day. Just previous to the fight of last Monday evening, the sporting editor of Salt Lake Tribune had this to say: "Kid Irish, the hard hitting welterweight who created a sensation at the Grand theater a couple of weeks ago by stopping Tommy Crawford in four rounds, has been matched with Jack Meyers for one of Harry Downing's six-round windups next Monday night at the Grand. Meyers is about the best boy of his weight hereabouts and as he will have the advantage of a few pounds in weight over Irish, as well as height and reach, it should be a tough argument. The other six-round event will introduce a high-class boy from the coast in Harry Atwood of Los Angeles, and Yankee Allen. Atwood has met all of this best boys in that class, as well as the lightweights, and although he will be giving away a few pounds to Allen, he says that makes no difference to him. He is a fast, two-handed boy, with a good punch for a lad of his weight, and he is almost sure to make a hit with the local followers of the game."

Ambition of Carpenter.

Jack Carpenter, who was one of the best men here a short time ago, has decided to get back into the game in earnest and has been matched with Tommy Crawford for next Monday. There is no denying the fact that Carpenter is a mighty clever man when he is in shape. He has been trying to get Manager Downing to give him a bout for several weeks, but the local promoter has told him that he would be in earnest by first getting in shape. He has been working hard for the past week and boxed twelve rounds yesterday to prove that he was in condition, so he will be given the chance he is after. Carpenter says his sole ambition is to get a return match with Atwood, as he says he didn't have time to get in shape for that match and that he ideal up in the sixth round and Irish beat him.

The board of governors without delay guaranteed the raising of the sum, and appointed Leonard as chairman of a committee to visit business men. The appropriation, if made, would come largely through the business men directly interested, although it is thought the city government would aid in bringing the show to the capital. The National Woolgrowers' ram sale and sheep show is an annual convention. Sheepmen from all over the Western country attend this gathering and consequently it is urged by those favoring the expenditure of the hundred thousand dollars to be used in decorating the city, offering premiums and for other expenses, the city holding the convention enjoys an influx of considerable money in addition to the advertising.

Traffic departments of the railroads entering Salt Lake City and in the intermountain country are willing to cooperate with the National Woolgrowers' association in holding a ram sale in Salt Lake City and also in the opening of wool auction houses.

It is the plan of the railroads and of the woolgrowers to try to establish in Zion a central market for the wool clip of the Western states and to erect warehouses to hold the clip until the auction days. The plan is similar to that in effect in Australia.
